March 22 & 23, 2014

Do you wish that Otology workshops would help you see exactly what the surgeon sees? The answer to your question is here!

MESIARC has always brought you cutting edge technology for education. The biggest bane of teaching otology is the concept of making the audience understand the depth and distance in otological procedures which are vital for good results.

MESIARC 3D otology is here to fill that gap. The first exclusive 3D otology surgical workshop in India. Eminent faculty, top end surgical microscopes, high definition cameras all come together in three dimensions to show you surgery like never before!

Most basic and advanced Otologic procedures will be demonstrated by experienced faculty from India and abroad.

Faculty

Prof Erwin Officiers, Belgium

Dr Manoj Manikoth, Calicut

Prof. Neelam Vaid, Pune

Dr Ameet Kishore, New Delhi

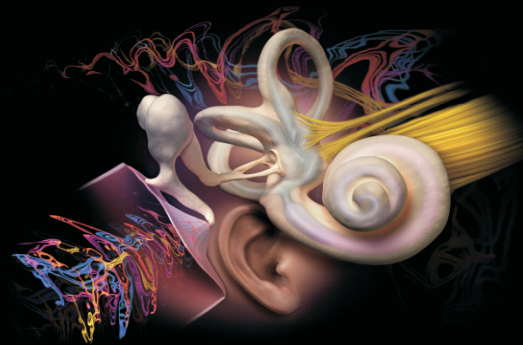

Register by sending us a DD / Cheque for Rs. 5000 in the name of MESIARC payable at Calicut or register online at www.drmanojdent.com
