# TEMPORAL BONE DISSECTION WITH A DIFFERENCE @ MESIARC

Unless any temporal bone course is organized in a conscientious manner with proper equipment, instruments and structured guidance, it is simply an exercise in futility. We need good, well preserved bones, and unhurried demonstration and adequate time for dissection for the participant to benefit fully. For one can never hope to become an Otologist without this exercise.

## **THIS IS WHY MESIARC TEMPORAL BONE COURSE IS DIFFERENT**

10 full hours of dissection. Enough time for patient exploration of the most intricate bone in the body. Each exercise is shown first by the instructor in clear high definition. The dissector then follows under the guidance of experienced otologists. One bone, one set of equipment, one dissector and an observer-10 stations, meticulously arranged.

***Register now to avoid disappointment***

### Registration charges

Temporal bone dissection	Rs 22000 (Inclusive GST)
Observer	Rs 5000 (Inclusive GST)

***For B2B invoice, details to be given.***

***For the registration and payment details of temporal bone course please contact the coordinator.***

**Limited Seats Only**
